

1. Website Structure

1.1 User Pages

1. Home

- Three sub-sections for services
- Three main content sections

2. Resources

- Blog
- News
- Videos

3. Products

- Advisory Services
- Account Management Services
- Mutual Funds

4. About Us

- Single-page company profile with vision, mission, and service details

5. Contact

- Support details (Email, WhatsApp, Phone Call)
- Contact Form

6. Login

- User login
- Admin login

7. FAQ

- Dedicated page with common questions

8. Calculator

- 24 calculators
- Drag-and-drop functionality for price inputs
- Manual input option

9. Advisory Plans

- Subscription-based plans
- Payment Gateway Integration (with auto-debit)

10. Account Management Services

- Step 1: Client Profiling & Goal Setting
- Step 2: Expert Account Management
- Step 3: Active Risk Management & Transparency
- Step 4: Shared Success (20% profit-sharing model, 1-year lock-in)

11. Mutual Funds

- API integration for mutual fund data
- Paid API integration (Vestbox Havi Engine)
- No graphs in current scope

2. Admin Panel

2.1 User Management

- Manage user accounts
- View user profiles
- Block/unblock users

2.2 Content Management (CRUD)

- Blogs
- News
- Videos
- Static pages

2.3 Subscription Management

- Track user subscriptions
- View subscription details (active/inactive/expired)
- Auto-update after payment confirmation

2.4 Plans Management

- Define and update plans:
 - 1 month – ₹2,500

- 3 months – ₹6,750 (10% discount)
- 6 months – ₹12,750 (15% discount)
- 1 year – ₹24,000 (20% discount)

2.5 Notification System

- Send plan notifications via email
- Alerts for plan expiry and renewal

2.6 Calculator Management

- Manage all 24 calculators

3. Technical Features

- **Payment Gateway Integration** with recurring auto-debit option
- **User Authentication** (User/Admin roles)
- **Responsive UI/UX Design** (desktop & mobile)
- **API Integration** for Mutual Fund Data (Vestbox Havi Engine)
- **Email Notification System** for reminders and plan updates
- **Secure Data Handling** for subscription and financial information

4. System Modules

- **Frontend:** User pages, calculators, subscription purchase flow
- **Backend:** Admin dashboard, user management, subscription management
- **Database:** User details, subscription plans, content storage
- **API Layer:** Mutual fund data engine integration
- **Payment Layer:** Auto-debit enabled online payment gateway

5. Subscription Workflow

1. User selects a plan (1M / 3M / 6M / 12M).
2. User completes payment through integrated gateway.
3. System auto-activates plan in admin panel.

4. Email confirmation sent to user.
5. Subscription auto-renews as per selected plan (with auto-debit).
6. Expired users marked in admin panel.

6. Security Considerations

- SSL-enabled website for secure transactions
- Encrypted database for user and payment details
- Role-based authentication (User vs Admin)
- Transparent portfolio updates for account management users
